Sir:

This constitutes a voluntary amendment. Kindly amend the application in the following respects:

IN THE CLAIMS:

Kindly cancel Claims 1 to 32 presently on file and substitute therefor replacement Claims 33 to 49 submitted herewith:

33. A mold section assembly for a die-casting machine comprising:

a mold section having a cavity portion and adapted to cooperate with at least another mold section in a closing action of the die-casting machine to form a cavity to receive an injection of material for producing a cast part;

a mounting plate secured to the mold section, the mounting plate having connection means so as to be slidably engaged to a leading end of a shank of the die-casting machine, in a direction generally perpendicular
